The initial search (metadata only) has returned 3,902 documents from 33 custodians. Based on the LN searches, this number seems reasonable to me. One of you will need to contact the requester and ask if she wants us to proceed with this. I am assuming that about 30% of this collection will either be duplicate or nonresponsive, but that still leaves about 3k documents that will need to be reviewed. That will equal something like 40-60 hours of review and production.

Hi David/Lynn,

For ED_000850, EPA-R5-2016-005983, you had requested an estimate for the number of documents for 33 custodians with the following search terms:
(("SDDL" OR "south Dayton dump") AND ("fly ash" OR "transformers" OR "PCBs" OR "solvents" OR "waste" OR "disposal" OR "transport" OR "hazardous" OR "DP&L" OR "DPL" OR "Dayton power and light" OR "Dayton power & light" OR "Grillot" OR "Grilliot" OR "Boesch" OR "Ottoson"))
OR (("Grillot" OR "Grilliot" OR "Boesch" OR "Ottoson") AND ("DP&L" OR "DPL" OR "Dayton power and light" OR "Dayton power & light" OR "fly ash" OR "disposal" OR "waste" OR "solvents" OR "PCBs" OR "transformers"))

The estimate for the total number of documents returned in the search is: 3,902 items

Let us know if you would like us to export this data for your review.

Regards,

Cheryl
